- Points through Race #4

President's Message

It seems like we just got started, but the season is already half over. And there is much to be positive about. Olivia tells me we currently have 400 licensed drivers, and at least 25 more are expected to join the ranks before season end. Entry counts at most races have been good. There has been lots of close racing and the battle for championships is already heating up in some classes (EIP, ITA, PRO3, CF). The points for Races 1-4 should be included in this Memo. Please check them over for accuracy and report any errors to the Points Keeper, Mike Blaszcak.

We are continuing to attract new drivers to ICSCC and the Novice Closed Wheel races have had full grids. Unfortunately, very few drivers have entered the Novice Open Wheel group. Group 6 entries have also fallen sharply this year and if the trend continues, the E-Board will once again have to address the problem and attempt to come up with solutions. If you're an open wheel/sports racer and haven't entered a race yet, now is the time to dust off your car and get it on the track.

The double race weekend in Spokane has to be classified as a great success. It's always a fun event, and it's never boring! This time we experienced a full-blown, canopy twisting, high wind dust storm. There were also record hot temperatures and lightning-filled thunderstorms. Northwest Motorsports reported the highest number of entries ever and there was a good turnout of both local and traveling workers. NWMS really goes out of their way to take care of their workers. On Saturday night, a pizza fest (the pizzas were made on site) and live band made for an enjoyable evening for everyone. As usual, there was lots of great racing, and thanks to Mike Blaszcak, even the drivers' meeting was entertaining. In recognition for all they do, the workers received a standing ovation from the drivers, and I know they appreciated it.

The relationship between drivers and workers is symbiotic: we can't exist without each other. The same can be said for the clubs. Thanks go to Cascade Sports Car Club for loaning radios and other equipment for this event.

The 2007 season has been more compressed than most and during the second half we will have two races in August and four races in September (including the double in Mission). In October, IRDC will host an Enduro.

Before long it will be rule change season. The Steward is already thinking about rules: it was the subject of his Soapbox in the last Memo. Remember, this is a drivers' club and your opinions matter. Through your Contest Board representative, you have a say in what goes on. So if you have an interest in proposing rule changes, now is the time for discussions with your fellow drivers. Then be sure to attend your club's rule change meeting and vote on the rules that get submitted.

Finally, next year we will need someone to fill the License Registrar position. After four years of service, Olivia Muro will be retiring. The second half of this year would provide a wonderful opportunity to become acquainted with the job and I know Olivia would be more than willing to show you the ropes. If you, or someone you know, might be interested, please contact either Olivia or me. We would be happy to answer any questions you may have.

Enjoy your summer, and I'll see you at the track.

CSCC Supplemental Regulations 2007

Infractions will result in penalties assessed to the driver.

1. Open to cars eligible under ICSCC current regulations.
2. This event is organized under 2007 ICSCC Competition Regulations, and all who enter PIR are subject to them. Cascade Sports Car Club reserves the right to refuse entry to this event or to PIR at any time.
3. Alcoholic beverages allowed in the *beer garden area only*, and only after the track closes. **You may NOT bring alcohol into PIR!** This is an Oregon Liquor Commission requirement. Any person caught entering PIR with alcohol will be *removed from the raceway*.
4. Registration Hours: 6:00 pm-8:00 Friday, 7:30 am-1:30 pm Saturday and 7:30 am - 10:30 Sunday
5. Express Tech is available at Registration for those drivers who meet the following: 1. Fully completed their entry form prior to Registration. 2. Prepaid in full. 3. Present to Registration with no license issues. 4. Vehicle has a transponder, and do not require a rental. 5. Have an acceptable Annual Tech inspection noted in their vehicle logbook. 6. Not part of the mandatory Tech presentation group for the weekend. You will receive an invitation to Express Tech prior to the event from the Registrar. At registration, Express Tech drivers should bring their personal safety gear and vehicle logbook to Registration where you gear will be inspected and a weekend tech sticker issued. Express Tech eligibility is decided by the Registrar.
6. Express Tech hours: 6:00 p.m. to 8:00 p.m. Friday and 7:30 a.m. to 9:30 a.m. Saturday
7. People under 18 years old are not allowed in hot pits, pre-grid or on victory laps. Children under 12 must have direct adult supervision at all times.
8. A current and properly completed minor release form, signed by an authorized adult, must be on record for all minor participants brought into PIR.
9. Competition numbers must be readable: Section 1106 enforced.
10. The scales will be open Saturday from noon and Sunday all day.
11. **No skateboards or scooters allowed in the paddock area. Users of bicycles and small-motorized vehicles may have riding privileges revoked at any time by the Race Chairperson.**
12. Refueling not allowed in pre-grid. Fueling in the hot pits requires a crewmember assigned only to operate a fire bottle. Excess spillage will result in a penalty.
13. *No smoking* allowed in hot pits, pre-grid or *any* PIR building.
14. Only one support vehicle allowed in paddock. Pit and pre-grid roads must remain clear.
15. Noise rule ICSCC 1112 enforced! 103 dB at 50 ft.: *no exceptions!*
16. Oregon State Law requires functioning mufflers to be used at PIR. Functioning mufflers must be capable of reducing sound energy by at least 5dB at trackside. Cars losing mufflers, even if they are still below the sound level, will be black-flagged immediately.
17. Damage to the track, grounds or buildings, regardless of cause, will be charged to the driver responsible. Also, damage to any equipment or devices used by the sanctioning body (ICSCC) or sponsoring club (CSCC) to conduct this race, regardless of cause, will be charged to the driver responsible.
18. Family and crewmembers of drivers are to contact the landline communication person at pre-grid with any questions regarding their driver or car while on track.
19. All entrants for this event shall present at tech inspection an empty, sealable container or containers, marked with the driver's name and license number, capable of holding 2 gallons of liquid. These are to be used to remove all oil, cleaners, brake fluid, etc. from PIR. There will be no drums provided.
20. Anyone caught dumping oil at the raceway will be fined and banned from the raceway. This is a PIR regulation.
21. If entries exceed the number of cars allowed on the track for a particular event, drivers and cars entered as an "additional event" will be restricted from participating, on a first-come, first-served priority based on the date entries were received. This is in order to allow participation by all drivers for whom the event is their primary event, including Novices upgrading to a championship event.
22. NSF checks will be charged an additional \$50 fee.
23. The racing "hot pit" is defined as that area under the control of Hot Pits personnel. This area is located immediately west of the break in the concrete wall half way up the pit lane. Per ICSCC rule #1607, any person over that "pit wall" during practice, qualifying or races shall wear long pants, shirts that cover the shoulders, and shall not be barefoot or wear open-toed shoes. At the one-minute warning, pre-grid becomes a "hot" area. At that time, pre-grid must be cleared of all crew, support personnel and spectators. Notwithstanding the above, ICSCC rule #1607 does not apply to the pre-grid area.
24. All cars that are towed into the paddock area are subject to being dropped off in impound.
25. In order to receive a refund you must notify registration if you are withdrawing from the event after you checked in and before Tech.

Thank you – Greg Swanson, CSCC Race Chairman

COMMENTS: **Novice Closed Wheel – Race**

June 28, 2007 9:08:59 PM STEWARD: _____ TIMING &&

Steward's Soapbox

We have apexed Race #7 and are headed toward #8

I am going to stick my neck out (once again) and say, “you, ladies and gentlemen, clean up very well!”. Fines and penalties are tapering off, and if this smarter style of racing keeps going in the right direction the Conference Building Fund may continue to suffer. So, let it suffer!

However, we must not be overconfident, because we are getting to that part of the season where Championship Points tend to be more important than fenders, doors, and rocker arms. (I put in the rocker arms so that our Open Wheel drivers know that they are also included). My advice to you is to keep your racecar “safe”, so that you can continue to muster points at each and every race until you take the Checkered Flag at Pacific Raceways, on September 30th.

There is one factor, however, working against you... it is called Turn #1. It's the place where some of you like to include a little bit of “Las Vegas gambling” into your racing strategy. I think that most of you will agree it is the one place that could put your dreams of a 2007 ICSCC Championship trophy “on hold” until next season.

Our duty, as Stewards, is to help you stay around to get your racing hardware at the awards banquet, and also make sure that you don't ruin someone else's vision of a big trophy on the mantle.

To help us accomplish this we will continue to issue fines and penalties for any behavior that would alter your real goal of finishing the race and finishing the season.

We encourage you to race hard, 10/10th hard, but we also want you to remember to race clean, 10/10th clean. The 2007 ICSCC Championship Point Standings will mean more to you if your competitors are all still “in play” at the end.

Next item. This season being more than half over, it might be time to start thinking who is deserving of the Driver of the Year Award. Your nominee should be a driver whose driving skills you admire. He or she is a driver that is an asset to Conference Racing, and a good example of sportsmanship. Next month, I will have more information regarding this selection. Until then, have fun, be safe, and save your fenders, doors and rocker arms.

Ron Muro, 2007 Race Steward

20. The Hot Pit speed limit is Fifty (50) Kilometers per hour (30 mph). The Hot Pit Lane ends at the Starters Tower.
21. Only ONE support vehicle allowed in Paddock/Pit area. Roads **MUST** remain clear. All Support vehicles and trailers must be parked perpendicular to the track unless permission is obtained in writing from the organizer.
22. No race vehicle may exceed 95decibels (db) measured at 50ft. from the racing surface. Readings will be taken at an acceleration point Cars exceeding the db limit will have one or more of their Qualifying times in that session erased, or be *disqualified* from their race.
23. Damage to track, grounds, buildings or equipment, regardless of cause, will be charged to the driver responsible. Damage to paved areas may result in fines. You are required to protect the asphalt from damage by jacks, jack stands, poles, etc.
24. If entries exceed the number of cars allowed on the track (determined by the Race Chairmen) for a particular group, drivers and cars entered, as an "additional entry" will be restricted from participating, based on the date the entries were received. This is in order to allow participation by those for whom the event is their primary event, including novices upgrading to a championship event.
25. All entries for this event shall present, at tech inspection, empty sealable container(s) marked with the driver's name and number, capable of holding 8L. (2 US gal.) of liquids. These are to be used to hold all oil, cleaners, brake fluid, etc. There are recycling containers for these fluids along the back road of the paddock near the garbage cans.
26. All hazardous waste spills are to be reported to the Race Chairman. Anyone caught dumping oil will be FINED and BANNED from the raceway. There are recycling containers for these fluids along the back road of the paddock near the garbage cans.
27. **DO NOT BLOCK THE PAVED PADDOCK LANES DURING RACES.** Trailers may be loaded at the back of the paddock.
28. **Tire scrubbing is not allowed at any time during practice or qualifying sessions.** Scrubbing is allowed only on the pace laps preceding the initial green flag starting a race, or under pace car control.
29. The importation and use of leaded fuels for use in motor vehicles is permitted in Canada only for use in racing vehicles. Leaded fuel is not available for sale at gas stations in Canada.
30. No open fires anywhere! Barbecues will be the only exception as long as they are away from any combustible source such as gas cans, gas tanks or fuel cells, etc.
31. No overnight camping at the track Sunday night without permission, please contact the SCCBC President.
32. **Gates are locked for the evening at 10:30pm and reopened at 7:00am.** In case of emergency please call the emergency access number posted on the inside of the front gate. There is a pay phone at the far east end of the spectator parking lot.
33. Long pants, sleeved shirts, closed toe shoes, and visible wristbands are to be worn in the Pregrid, Hot Pits and Impound areas.
34. Cars arriving at Pregrid after the 5-minute warning will be put at the back of the grid
35. All pets must be on a reasonable length leash while on site.
36. Late Registrations on Sunday MAY be accepted, at the Race Chairmen's discretion.
37. **BLEND LINE.** On entering the track, keep **four (4) wheels** to the right of the solid line.
38. **All race participants and their race/support vehicles must vacate the premises by 7PM on the final day of each event.**

Thank You – Tom Roy; SCCBC Race Chairman 2007

Lesson Learned

Mission is possibly the best teaching course in the ICSCC circuit. This 1.5 mile, 9-turn course is tricky to get right and can be unforgiving if you get it wrong. It was at Mission that I learned a lot about controlled oversteer, smooth transitions between brake and throttle, and the proper balance between brake and steering input. Each season you're almost assured a wet day there to further your education.

Last month one of my best novices totaled his race car at Mission. He is a good driver and was able to recall several factors that, by his own admission, contributed to the incident and its costly results. I am sharing these factors here in hopes that we can all learn from them.

1. Don't drive hard unless you are physically and mentally up to the task. Be careful not to overextend yourself. Mission is physically demanding and *this driver had entered both Novice and Senior races.*

2. Don't try to learn a track on race day. *This driver had not taken advantage of the Friday test 'n tune session.*

3. Don't let your mirrors drive you. Drive your line. If you feel too pressured by someone behind you, point them by; then get on their tail and learn from them.

4. Don't drive 110% on a new set-up. If you make suspension changes or tire changes, take time to learn the results at a safer speed.

5. Think long term. That can mean 30 minutes (don't try to win in the first lap), a season, or even a career. The more perspective you have, the better.

6. If you have a problem with a corner and know it, don't push it during a race. Take the safe line until you have practice time to experiment.

7. Do take the time to adjust your harness system properly. *This driver cracked some vertebrae and must wear a brace for awhile as a result of a crash at 40 mph. Due to a mechanical failure, an identical car rolled violently last year entering T1 in Spokane at 120 mph. The Spokane driver*

*walked away and felt no pain then or after. The difference – a properly adjusted, **tight** harness system.*

8. Do buy the best safety gear you can afford. The "overbuilt" cages did their job well. A Hans device prevented any neck trauma in both the Spokane and Mission crashes.

9. Try to remember we do this for FUN! There's no prize money, no National TV coverage, and no bikini-clad trophy presenters. It is all about racing with your friends and bench racing afterwards. Save that last 5% effort for your F1 debut.

10. Thank your Safety Officials!

11. Don't give up! Get back on that "horse" a bit wiser and put your hard-earned wisdom to good use.

In March it may be too late to get the helmet you want

“The Days Are Numbered... On Your Old Snell SA 95 Helmet”

Time has run out on your SA95 helmet. The rules now state that you must have an SA2000 or new helmet for the 2007 racing season. Act now to ensure that you'll be able to get the exact model helmet in time for the season.

The great news is that we have the helmet you want with no worries about being stuck at the season opener with an outdated helmet.

We stock Bell and Pyrotech helmets or can special order any helmet you want. Don't trust your head to just anyone, allow the safety equipment experts at Armadillo Racing to help you select the right helmet for you, your car, your type of racing and your budget.

Need a HANS device in 2007? Armadillo Racing is the only authorized factory trained dealer in the NW. We can even move the anchor posts from your old helmet to your new helmet.

To Order or for expert assistance in choosing a helmet.
