Well, here it is – my last President’s message. Three years have gone by quickly.

As 2008 comes to a close and I reflect on my 10-year association with Conference, I feel both enthusiastic and proud of what ICSCC has accomplished in its 52-year history. The International Conference of Sports Car Clubs is still a strong and viable racing organization, and I believe it owes its success to the goals, the consistent structure of our rules and policies, and the dedication of the many volunteers who have given so much of their time to make it work. It’s truly amazing what a common passion can create. We are all lucky to be a part of this Conference ‘family’. As ICSCC moves forward, we must be watchful, changing as needed without abandoning the things that have made us consistently strong.

I feel very privileged to have served as your President for the past three years. I have enjoyed working with each and every member of the Board, all officials and volunteers, race workers and fellow drivers. Thank you all for your participation, contributions, and support. I look forward to the 2009 season of championship racing and continuing the many friendships I have formed.

But before I sign off completely, here are some final pieces of information to pass along.

Now that the Fall Meetings and 52nd Annual ICSCC Awards Banquet are history, the 2008 race season can be officially checkered. This year, the banquet had more than 200 attendees and our drivers received 63 hard earned trophies. Twenty-seven race workers also received awards for their dedication to Conference. Congratulations to all the 2008 Championship Awards winners. This year’s perpetual trophies were presented to Ralph Hunter – ICSCC Worker of the Year, Jeff Broadhead – ICSCC Novice Driver of the Year, and Greg Miller – ICSCC Driver of the Year. I would like to thank everyone who came to celebrate the accomplishments and contributions of all our drivers, workers, officials, and clubs. A special thank you to Lynne Eskil, Peggy Walker, Cheryl Gilbert, Gerry Frechette, and George Burgesser for their efforts in making the evening so enjoyable.

Earlier in the day, the Contest Board met and voted on 31 rule change proposals for 2009. Vote results are included in this Memo. The E-Board also approved the addition of two new provisional classes: Formula Continental (Group 3), and Vintage Formula Vee (Group 6). These new classes represent the most recent efforts of the open wheel drivers to increase entry counts in Groups 3 and 6. Following success in 2008, the Novice Open Wheel class will continue to run in Group 6 in 2009.

Although the 2009 schedule will not be finalized until the Spring Meeting in January, a tentative schedule (14 races, 11 weekends) was created, and it includes races at the new and challenging Grass Valley track. If you attended the banquet, you were treated to a video ride-along of the track. The track construction is coming along nicely – check out their website for new developments and more in-car videos.

continued…
ICSCC Officials 2009

Please respect our volunteers - no calls or faxes after 9 p.m.

* The License Director and Registrar and Stewards listed here are those for the 2009 season. A complete list of 2009 officials will appear in the first issue of 2009.

The ICSCC Memo is a publication of the International Conference of Sports Car Clubs. The ICSCC Memo and its contents in entirety are copyright by the International Conference of Sports Car Clubs. Any reproduction by any means, electronic or mechanical, without the express written permission of the International Conference of Sports Car Clubs, is prohibited. The ICSCC Memo accepts written comments subject to ICSCC policy limitations but will not be held responsible for the content of such letters. Letters only published if submitted with the author’s name, address and phone number. The ICSCC Memo is printed in the USA by Lazerquick, Beaverton, OR  Editor - Danielle Baxter, PO Box 219 Fort Langley, BC, V1M 2R5, tel. 604-882-8078. The publisher reserves the right to reject any paid or unpaid advertisement.
**President’s Message, continued…**

The 2009 License Application and Medical forms are also included in this Memo. This year, you will be able to opt out of receiving the Memo by mail, if you prefer to access it online instead. If you want to opt out of postal mail, make sure to check the box on the license application before you send it to Karen.

At the conclusion of the Fall Meeting, elections were held for the 2009 Race Steward, License Director, and President. **Mike Blaszczyk** will be your **2009 Race Steward**. I know many of you are anxiously awaiting his drivers’ meetings! Thank you, Hal Hilton, for the great job you did in 2008. **Randy Blaylock** will be taking over as **License Director**. Greg Miller is retiring after two years in the position. In my estimation, Greg took the Novice program to a whole new level. He did a superb job of mentoring the Novice drivers, and I know Randy will do an equally outstanding job. If you don’t already know him, Randy drove the meticulously prepared #95 red Viper in Groups 1 and 4 last year.

Your new **2009 ICSCC President** is **Kevin Skinner**. Kevin has been an integral part of SCCBC and Conference for a long time, and he was SCCBC’s E-Board representative for many years. He knows ICSCC’s history and shares the same commitment and enthusiasm for racing that has carried this organization through its previous 52 years. As President, one of my goals was to make sure that Conference remained a strong and respected racing organization. Kevin shares that same goal. I am confident you will give him the same support you have given me.

Finally, the Heinrich household wishes you and your family the merriest of holiday seasons and a healthy and successful New Year.

See you at the track in 2009.

Linda Heinrich
ICSCC President (now retired)

---

**The full 2009 Memo submission schedule will be published in the first issue of the year.**

**Deadline for the first issue of 2009 is January 14.**

---

You can post your own non-commercial ad on the ICSCC Drivers’ Meeting Forum Buy & Sell board!

Go to www.icscc.com/discus/...
Please read the guidelines for use of the board.
Please post a notice when your item is sold

---

**Photos on the ‘Net!**
Rainbow Action Imagery has photos of your car on the internet. At our website you can see all the photos from an event in one place, pick the ones you like, and order them online. To see your photos:

1. Go to www.dotphoto.com
2. Enter username gerryf and password rainbow
3. Pick a photo gallery to view

From there, follow directions for ordering online or contact Gerry or Sue for further info, at 604-734-4721 or gerryf@telus.net.

---

Moving?

All ICSCC licensed drivers must advise the License Registrar of a change of mailing address! Notifying the Memo Editor directly will not keep your Memos coming: the mailing list is generated anew for every issue by the License Registrar. Please include:

- Name
- New Address
- New Phone #
- Old Address
- Effective Date
- Email Address

Send to (by email is preferred, if possible):

ICSCC License Registrar
Karen McCoy
karen.mccoy@netzero.net

Memo recipients who are not drivers, please advise the Memo Editor of a new address:

ICSCC Memo Editor
Danielle Baxter
icscc@telus.net

This applies also to change of name. If you prefer to send by post, please refer to inside front cover for addresses.
ICSCC License Renewal Made Easy

Have you ever noticed the checklist at the bottom of the ICSCC Competition License Application? Or looked closely at your Memo label on the last and first issue of each year?

Make your life trouble-free — at least as far as renewing your competition license — by following these simple tips:

1. Use the checklist — it works! Your license cannot be printed until the License Registrar has all those items. And if there’s something missing your application goes to the bottom of the pile and the complete ones are processed first.

2. Look at the label on your Memo. If it says you need a doctor’s physical, make an appointment with the doc now for early next year. Usually these appointments are difficult to get on the spur of the moment.

3. Send your application in early. Please don’t wait until you’re sending in your race entry to remember you need your new license. Besides, you could be charged an additional “hurry up!” fee.

4. Oh, and maybe the greatest incentive to plan ahead: If you wait until after March 31 to renew, you could lose your favorite car number! Yikes!

5. And something new this year! If you usually read the ICSCC Memo online (or are willing to start), please check the box to opt out of receiving a copy by postal mail. Everything published in the Memo is available online — and usually about a week earlier than it arrives at your door. If you have any questions about this, please contact the Memo Editor, Danielle Baxter, at 604-882-8078 (evenings ‘til 9:30) or icscc@telus.net.

I have enjoyed working with all of you this past year and look forward to 2009!

Karen McCoy
ICSCC License Registrar

Club officials (Race Registrars and Race Chairs) for 2009 will be listed in Memo #1 or #2 2009.

If you have race-related questions in the meantime, contact the clubs directly via their websites, listed below.

Physician’s Comments (may continue on the back of this form)

☐ I believe that the applicant is fit to drive a racing car in competitive events at high speeds.
☐ This applicant should be reviewed by an ICSCC official.

Physician’s Signature: ___________________ Date: ________________

Place physician’s office stamp below (physician’s name, phone and address):
Saturday morning was cool and crisp but with no fog... a few minutes before 11 a.m. a pipe band played, and the national anthem was sung. Soon, engines were revving... at clock zero time, the pace car led the field out. After 2 or 3 pace laps, the field rolled down the front straight for one of the cleanest starts I have seen in a highly competitive race.

Reg Milne was our first driver, and impressed us with his steady climb through the pack. By the end of his 2 hour time, our starting position had become irrelevant. Hal Hilton took over at about 1 p.m. and continued the good work.

Soon the water temperature began fluctuating. After several laps it was decided to bring the car in to check the coolant. Hal went back out, but the problem continued. Next a new radiator cap was put on. The problem continued, though, and finally the decision was made to replace the thermostat.

I drove when the car went back out. The temperature fluctuation became more extreme, and I spent a lot of time and concentration checking the gauges. Whenever it appeared to stabilize, I concentrated on putting together a good run, but... as I came out of turn 15 onto the front straight, under hard acceleration near 6000 rpm in 3rd gear, I felt the power drop suddenly, and a cloud of oil smoke puffed out behind.

I talked with Stan and Justin on the radio, assessing the situation, and we decided to limp the car around and into the paddock. The chiefs determined we had blown a head gasket, likely due to water pump failure. It would be a couple hours’ work, so I got out and ate while Jon, Stan and Justin worked.

At about 5:30 p.m., fog came in, quickly and with force. The temperature dropped 10+ degrees in less than 5 minutes and visibility went to a few hundred feet. The track was shut down by about 6:30 p.m.. Race management told the teams that they would make hourly reports over the track PA system, and would give 30 minutes warning before resumption of the race, to allow time for drivers and crews to prepare.

We concluded repairs on the car around 7:30 p.m. and then there was nothing to do but wait. Most of us slept. I would be driving when we resumed, but nobody had any idea when that might be. I slept from just after 8 to 4:15 a.m. when I was awakened by the PA saying that we would be starting again at 5.

It was still foggy and cold. It is quite an experience to get out of bed, slip on the driving suit, climb into a race car and pull out onto a cold, dark and misty track to go drive as fast as possible! Since we were behind the wall when the track was shut down, we started from the rear. The car felt very consistent, balanced and smoothly powerful. I began to warm up and get comfortable and my lap times dropped below 2:10. Often clumps of fog would drift through, partially or fully obscuring visual references. Amplified by the shifting illumination from the lights of the cars ahead and behind, it all made for very challenging driving. But as my stint progressed I adapted to the conditions and I began to turn 2:06s and 2:07s.

At about 6:45 AM I handed off to Rick Delamare. Rick’s drive was similar to mine, with increasing
Throughout the year, our member clubs supplied the tranquil garden settings for all of us to have our weekend gettogethers, and for that we are appreciative.

Throughout the year, the drivers supplied the entertainment at these little soirees, and for that we are truly grateful.

Throughout the year, the volunteers came to set up and tear down the garden settings, they came to restore the tranquility when the entertainment occasionally derailed, they came because they wanted to be there and for that we are thankful.

This is the ICSCC family way.

Special thanks to Rick Delamare and Greg Miller for presenting the ROD Awards this year, and to Hal Hilton for presenting the Worker of the Year Award. This year 73% of the ROD Members received recognition awards. They came because they wanted to be there.

ICSCC ROD Director

Thunderhill, continued...

daylight adding visual challenges of its own. Other than minor contact by another car, Rick had no problems beyond the variable visibility. His times also improved, and about 8:45 a.m. he handed off to Jeff Remfert. Jeff went out in the improving conditions and was soon turning the fastest laps of the race so far.

Reg and Hal decided, since we were out of the running for a podium finish, to do some suspension tuning and also get everyone an unscheduled extra shift in the car, an unexpected (though characteristically generous) decision.

The car now ran flawlessly and handled like a dream. As conditions were very consistent, and traffic had thinned due to attrition, we began to see who could run the fastest lap. Hal had previously set the bar at 2:02.0 and Jeff bested that by about a second at 2:01.0. Hal managed 2:00.04 with just 20 minutes to go in the race.

I am extremely proud to have been able to participate in such an event with the caliber of people on this team. It was a high point in my experiences in life! Thank you to the whole crew and driving team of Matrix Integrated and Hilton Motorsports… to Hal for having the confidence in me to invite me to join the team and drive his car at full tilt boogie in the dark and fog. Most of all thank you to my wonderful wife Renee, who consistently supports me in my passionate madness, and who really appreciates how much racing means to me.

Total votes = 443
I learned a lot in my role as License Director over the last two years. The first lesson was realizing how tough it is to be a director and still try to race. Saturdays were pretty much shot. With help from the Stewards, I could occasionally squeeze in a practice or qualifying session — if my car was 100% ready. I was also fortunate to have an understanding renter and the PRO3 community to help with the car when I couldn’t.

Was the loss of track time a fair trade-off for my experience as license director? Absolutely.

The very best part of my job was, of course, the people. Some I worked with: the safety volunteers and race officials who were my eyes and ears; the pace car drivers and grid officials who offered tips and advice; and the license registrars whose memory and recall abilities were amazing. I especially want to thank Olivia Muro and Karen McCoy for making me look good. These two kept the records straight and issued licenses with super efficiency.

I also enjoyed interacting with new and returning drivers, an enthusiastic bunch that quickly got me back into “race mode” each Saturday morning as we gathered for the track walk. Nearly all the novices blended well into the ICSCC family, and many immediately committed themselves to the betterment of the race community. (It was also this group that frequently reminded me that adult education sometimes lacks the “adult” element — perhaps because racing brings out the kid in all of us.)

When I asked fellow ICSCC drivers, crew or volunteers to work with a given novice or evaluate their race, I got overwhelming positive responses. Each and everyone of you is deserving of any credit I may get for teaching and mentoring our new drivers. No one person can properly mentor and teach the drivers that will be driving within inches of you all too soon. You kept the community spirit and responsibility alive and helped safely train our new driver members. This was, and is a truly synergistic effort.

Finally, I have great appreciation for the club volunteers who organize and manage the races at each venue. At every track, I found people with a common goal—to do the best they were capable of. Without these cadres of volunteers, none of us would be racing.

I also got a chance to see the workings of ICSCC from the inside. (RATS and ICSCC Board meetings are open so I encourage you to attend if you haven’t.) The strength of ICSCC is the opportunity for every driver to participate in annual rule changes. I am very impressed how tight a ship Linda Heinrich ran; with the help of people like Dick Boggs (Roberts Rules guru), Dennis Peters and hubby Dan, she manages to get through even tough agendas in a timely manner.

Next year Randy Blaylock will be stepping into the License Director slot. Randy has been driving for a number of years including some time on the roundy-roundy tracks. His day job involves driving a 20 Ton fire truck at speed on the challenging and narrow streets of Seattle’s Capitol Hill. He ran his Viper well for a couple years and now is a key player in the new Ground Pounder grid that may rival Pro3 as the fastest growing and most fan-pleasing group in ICSCC. That group shows the same close family ways that made PRO3 popular. Novices will especially appreciate Randy’s thoughts (and demonstrations) on how a fast and slow car group can co-exist on the same track.

And what am I going to do next year? I’m gonna shut up and drive. :-) See you at the track!
The Westwood50 organizing committee in conjunction with The Sports Car Club of British Columbia and the Vintage Racing Club of British Columbia announces an event to recall and celebrate the legendary and much missed Westwood Racing Circuit. Westwood held its first race on opening day July 26, 1959 – fifty years ago.

The celebration event will consist of a special three day running of the Vintage Club’s annual Historic Motor Races, as well SCCBC special Races and a variety of social events and displays of cars with Westwood history and other memorabilia. A reunion gala dinner is planned for the Saturday evening.

The event will run on the weekend of July 17, 18 and 19, 2009 at the River’s Edge Road Course at Mission Raceway Park in the Vancouver suburb of Mission, British Columbia.

Westwood50 will be a significant and memorable event for all motor sport enthusiasts.

Westwood Racing Circuit, located in the Vancouver, British Columbia suburb of Coquitlam, was Canada’s first purpose-built automobile road racing track. The history of the track is inextricably intertwined with the history of the Sports Car Club of British Columbia, the group that built the track and operated it over its life of 32 seasons. Because it was built and operated by a club, the circuit had a very different personality than most racetracks. It was a real “people place” — families grew up there.

Additional information will be posted on the website, or email: info@westwood50.org

www.westwood50.org

COnGRATULATIONS TO THE 2008 ICSCC AWARD WINNERS!

For Sale: PRO-3 Race Car - 1987 BMW 325is. Great car, with lots of ICSCC racing history (Oscar, former Kahn car). Fully sorted & race tuned by TC Motorsports. Lots of extras. $12,950 or best offer. 253-209-1006 or timjodonnell1@msn.com 8/08

Memo Classified Ad Policies:
Non-commercial ads are free to Conference licensed drivers, officials and workers. Maximum ad length 100 words: longer ads not accepted. To place an ad in the Memo, contact the Memo editor at icscc@telus.net. Proof your ad when it first appears – it is presumed correct unless the editor is notified in writing! Ads run for 3 issues, then are automatically cancelled unless renewed. Numbers at the end of the ad show when it began: 1/08 means first issue of 2008, and that ad will expire after issue #3 of 2008 (3/08). There are 10 issues per year. To change an ad you must rewrite it and submit the new wording in its entirety.
“National Treasure Right Here In the Northwest – Don’t Miss It”

Let me tell you the story about how it happened. For years I’d dreamed of putting together a seminar with the best minds in racing sharing their secrets and experiences with local racers. I didn’t know how to do it and I needed something or someone to jolt me into taking action. So when Goodridge Competition Plumbing agreed to sponsor the event, then I had to plan it and make it happen.

I’m talking about the Armadillo Racing High Performance Racing Seminar. Over the years it’s even been called a bootcamp because you’ll feel like an army recruit being fed so much information you’ll think your brain is going to explode. In 1995 the speakers included Jay Ivey, Mike Demski, Goodridge on plumbing your car, and Don Kick on performance driving. Since then the list of speakers reads like a who’s who of racing: Carroll Smith, Jeff Braun, Ross Bentley, Ryan Falconer, Peter Brock, William C. Mitchell, Lee Stohr, Pete Lovely, Leo Methi, Arnie Kuhns, John Morton, Bob Earl, Hirscheif McGriff, Terry Borcheller, Dr. Bob Hubbard and many more. These racing experts and legends are the reason this seminar is considered to be a National Treasure because nowhere else in the USA is an event of this caliber offered each year to the local racing community.

Mark your calendar now and plan to attend the 14th annual Armadillo Racing High Performance Racing Seminar, 7 February 2009

Speakers for the seminar are being confirmed at this time and will be posted at www.armadilloracing.com or call toll free (USA & Canada) 1-888-211-9129.

“Great speakers and timely subjects. An excellent opportunity to hear national and international experts at a local setting. Well organized and a definite value for the money.” – Roger Stark, GT-1 Corvette

“My brain is full . . . thanks Andy.”” – Brad Pugh, Club Ford

“Excellent. Not a dull moment. All speakers were very interesting even though the topic might not apply to my racing.” – Al Murray, 1969 Macon
