LETTER FROM THE PRESIDENT

I wait all year for summer and then blink my eyes and it's coming to an end. Luckily there is still a lot of racing remaining this year as we approach the NWMS Triple Grand Prix held @ Qlispé Raceway Park in Spokane on August 1-3. Following that it's on to the Ridge on August 23-24 and finishing up the sprint season in late September at PIR. Shortly after that in October we will complete our enduro season with 2, 4 or 8 hour races held by CSCC.

I attended the last IRDC Pacific race on Sunday only. I worked pre-grid all day which allowed me to see and chat with most of the drivers. That completes all this year's races at Pacific Raceways. It was a beautiful day and on a quick review there were qualification and race records broken with the ideal weekend conditions. Thanks again to all the volunteers that made this race weekend happen.

If you are planning to attend the race weekend in Spokane, please remember to bring spare trailer tires. I have helped several drivers over the years along I-90 changing tires. I have also lost a motor home outside dually tire at the Moses Lake area. It ended up making a great memory as the Les Schwab recommended a good place to eat while they worked their magic. Also keep lots of liquids on the list. I just came home from a motorcycle ride to the Wenatchee area, and it was like having a hair dryer blowing in your face the whole way.

I'm now starting to work on the upcoming banquet that is coming up on November 8th. It will be at the same location as last year but is changing from Best Western to a Doubletree inn. That means I get to meet a brand-new team to deal with meals and rooms. More information will follow and when confirmed it will come out in the memo and on MSR.

I plan on spending two days at Qlispé Raceway Park and hope to see you there.

Now you have great options...

Stay Cool in the Heat of the Summer

The Standard used by many racers

The compact Paragon 12-quart system provides the advantage of a cooling system for those racing applications that have limited space and is perfect for road racing — a favorite among the NW racers. You are cool and alert, so you look and feel your BEST even when track temperatures exceed 100 degrees F. The Paragon assembly consists of an ice chest, pump, hoses, mounting tray and a cotton shirt. Priced separately it is over \$782. Buy one now for just \$750 and stay cool whenever you race.

Get cool and stay cool with the Techniche Hybrid Vest

Now you have a low-cost option to stay cool for over an hour with the Techkevl vest that utilizes frozen packets of a phase change material. Unlike any cool vest you've seen before, the packets freeze at 58 degrees which means you just throw them in your ice chest and in 20 minutes they are frozen solid.

Personally tested at the Spokane ChumpCar race by Armadillo Andy: "It was about 85 outside and 100 in the car. I wore the vest under my suit and after my 1-1/2 hour stint the vest still had some frozen material. The vest kept me cool so I could focus on not being hit by other ChumpCars."

Complete vest and phase change packets **only \$219.95**. In stock and ready to keep you cool.

Officials, Turn Marshals and Crews — You have not been forgotten. Try the Techniche Evaporative Cooling Towels. Just soak in water and you'll stay cool for hours. **Only \$10.95**

Techniche
Hybrid Vest

FLUID HYDRATION SYSTEM

A programmable drink system installed in the car, that provides a squirt of water on a regular and programmable basis to keep you hydrated. Better than a Coolshirt system, studies have shown that constant hydration improves your decision making during a race. Indy 500 champion Ryan Hunter Ray says he won't ever race without one. Call for details.

"Armadillo is my go-to for all my racing needs, and Andy is helpful and knowledgeable!" Eddie Nakato — BWM M3

Select the cooling option of your choice to prevent overheating and improve your performance this summer. Then call or come by our showroom at the track to place your order.

WELCOMING THE NEXT WAVE OF DRIVERS

This season, we've seen strong novice turnout across all three Conferences—Northwest, Southwest, and Canada. From first green flags to completed signoffs, these drivers are progressing quickly thanks to the dedication of our volunteer stewards, instructors, and club members.

So far in 2025:

- Over 30 novice drivers have registered and participated
- 15+ racers are well on their way to completing all requirements
- Several have already transitioned into full license holders, ready for class competition across the Conference

Get Involved

We're always looking for experienced drivers who want to give back to the next generation. If you're interested in being a novice mentor, speaking at meetings, or sharing your wisdom trackside, please reach out to us.

The future of Conference racing is bright—and it's being driven by these passionate, talented newcomers. Let's keep the momentum going.

See you in the paddock.

LETTER FROM YOUR EDITOR

Hello Racers, Volunteers & Fans!

With only a few races left to go before we pack the trailers up for the season I wanted to thank everyone again for all their help with the memo this season. Every photo or submission I receive is very appreciated, after all it's your memo!

As the off-season looms don't forget to see what volunteer positions are open with conference and with your local clubs. We get to enjoy some amazing events, but none of these would be possible without the folks in the background making sure everything goes off without a hitch. We need your help at every level to keep racing in the Pacific Northwest as awesome as it is!

The banquet and fall meeting details will be coming in the next memo. I can tell you from being there last year, the food is not to miss! And the company is pretty great too!

A dyno form is not required. WT is minimum race weight with driver. Cars racing on 180 or above treadwear tires may deduct 1.0 from their WT:HP ratio if meeting the P1 – P3 specifications. Cars with lap times significantly outside of the typical sub-class range for a class may be reclassified by the Race Steward. ICSCC sub-classes listed shall follow class rules.

FULL SET OF RULES:

Entry to this race does **not** have to be in conjunction with any other race(s) of the weekend.

Except as noted, the 2025 ICSCC Competition Regulations will apply.

Classes follow ICSCC class rules except for the Production class (P1-P3) which is not an ICSCC class. Production cars should resemble factory production cars and shall follow guidelines outlined on page 1.

Maximum number of drivers per race: 1 Hour Races – two. 2 Hour Races – four. Teams may petition the Race Steward to have additional drivers. Drivers on teams that use more than the maximum number of drivers will receive full points if the driver has driven a minimum of fifteen minutes. In all other cases a driver must drive in the race to score points unless the car DNF's. Drivers may drive in up to two cars per race. Where a driver is found racing without registering, the team will at a minimum be disqualified.

Car numbers will be assigned on a first come, first served basis.

Points: See above (page 1) for point structure. Each driver will receive the same points whether an entry is one or multiple drivers. Example: If a one driver entry wins – 12 points are awarded. If a two driver entry wins – 12 points are awarded to each driver. Pole points will be awarded to both drivers. If a driver drives in two different cars in the same race, they will only receive points for the higher finish if the two cars are in the same class. If the two cars are in different classes, the driver will receive points for both classes. The Series Championship (each class) will be determined by adding a driver's six highest point totals together. Ties in final points shall be resolved on the basis of each driver's record of first place finishes; then, if necessary, second place finishes. If two or more drivers have accumulated the same number of first and second place finishes, they shall be considered tied for the Championship. If two drivers tie for the Championship, the next driver shall be considered to have finished in third place.
