#### **19.1 PUBLICITY POLICY**

#### **19.2 PROCEDURE FOR RACE PUBLICITY**

---

### **19.0 RACE PUBLICITY**

#### **19.1 PUBLICITY POLICY**

The publicity policy is to make the existence and location of all ICSCC races known to the media in those areas. It is recognized that most major forms of daily press and television in ICSCC race locations are simply not interested in amateur sports car racing. The job of publicizing ICSCC races is not an easy one.

#### **19.2 PROCEDURE FOR RACE PUBLICITY**

**19.2.1** Each sponsoring member club is responsible for publicizing their own races, with at least one press release being required of each club for each race date, to be distributed to all local newspapers. Newspapers that print the pre-race announcements are also to receive race results from the sponsoring member club. Media contacts shall be fostered, and the liberal use of free-admission press passes (available from Headquarters) is encouraged.

**19.2.2** The Publicity Director shall assist all member clubs with the preparation and distribution of press releases and other publicity materials. Matters of special so called "human interest" shall be made known to all clubs.

The Publicity Director shall publicize ICSCC to the national media (e.g. Autoweek) and prepare a list of all scheduled events, including driver training sessions, immediately after the Spring Executive Board Meeting, for circulation to all major auto racing magazines.

NOTE: If the list is prepared in the format used by the publication (e.g. date, place, time event, information phone number) and is submitted to that publication in that form, it will in all likelihood be printed. (In 1984, Autoweek printed all of our race dates; championship and non-championship; and all of our driver training dates.)

**19.2.3** Headquarters shall assist any club publicity director with names, addresses, and other data on any drivers entered in any event, including significant history where available

(e.g., Joe Leadfoot was 1978 ICSCC Driver of the Year and drove his Buick Roadmaster to 46 ICSCC wins).

### **25.0 SAFETY PRECAUTION GUIDELINES FOR COMMUNICABLE DISEASES**

#### **25.1 UNIVERSAL PRECAUTIONS**

#### **25.2 BLOOD OR BODILY FLUIDS--SPECIAL PRECAUTIONS**

#### **25.3 RECOMMENDED EQUIPMENT**

---

### **25.0 SAFETY PRECAUTIONS GUIDELINES FOR COMMUNICABLE DISEASES**

#### **2.1 UNIVERSAL PRECAUTIONS**

ICSCC is dedicated to safe racing. As a part of that continuing commitment, we want all participants adequately protected when there is an emergency on or off the track. This includes being protected from exposure to blood-borne viruses such as Hepatitis B and HIV (the AIDS virus). According to health officials, the risk of catching the AIDS virus from giving first aid is extremely small. However, because you never know when a potential exposure might occur, "universal precautions" should be used in all instances to protect against any possible risk. The following guidelines should be followed whenever there is the potential for contact with blood or other bodily fluids:

1. Wear heavy leather gloves when responding to situations where broken glass, sharp edges, or hot surfaces or liquids will be encountered.
2. When leather gloves are not necessary to protect yourself from cuts or burns, put on disposable gloves when blood or other bodily fluids are present. Disposable gloves should always be carried at all times to be ready for use. (Corrected Spring 2006)
3. Avoid getting blood or other bodily fluids in contact with your eyes, nose, or mouth.

#### **25.2 BLOOD OR BODILY FLUIDS - SPECIAL PRECAUTIONS**

If you do come in contact with blood or bodily fluids:

1. Carefully remove the soiled gloves, taking care to avoid contact with the exterior surface. Place the gloves in a plastic bag and seal it.
2. Remove any affected clothing and place it in a plastic bag for later laundering
3. It is important to clean the exposed area(s) as soon as possible. Wash affected areas with soap and water. If your eyes, nose, or mouth were affected, flush

thoroughly with water. If soap and water are not available near your station, go to the central emergency area and wash with soap and water and the disinfectant cleanser there. Wash your hands even if you were wearing gloves.

4. Give your name to the course marshal who will note it as part of the incident report.

### 25.3 LIGHTNING AND THUNDER

**Activities shall be suspended when lightning is seen, thunder is heard, or it is deemed lightning is a probable threat to the premises. The Chairperson of the event shall designate a representative to monitor the situation if thunderstorms are in the forecast.**

In general, a significant lightning threat extends outward from the base of a thunderstorm cloud about 6 to 10 miles. It's important to account for the time it will take for everyone to get to safety.

If you see lightning. The ability to see lightning varies depending on the time of day, weather conditions, and obstructions such as trees, mountains, etc. In clear air, and especially at night, lightning can be seen from storms more than 10 miles away provided that obstructions don't limit the view of the thunderstorm.

If you hear thunder. Thunder can usually be heard for a distance of about 10 miles provided that there is no background noise. Traffic, wind, and precipitation may limit the ability to hear thunder to less than 10 miles. If you hear thunder, though, it's a safe bet that the storm is within ten miles.

If the skies look threatening. Thunderstorms can develop directly overhead and some storms may develop lightning just as they move into an area.

#### **Seek safe shelter**

There is no place outside that is safe when a thunderstorm is in the area. Stop the activity immediately and get to a safe place immediately. Substantial buildings with wiring and plumbing provide the greatest amount of protection. Office buildings, schools, and homes are examples of buildings that would offer good protection. Once inside, stay away from windows and doors and anything that conducts electricity such as corded phones, wiring, plumbing, and anything connected to these. Note that small outdoor buildings including dugouts, rain shelters, sheds, etc., are NOT SAFE. In the absence of a substantial building, a hard-topped metal vehicle with the windows closed provides good protection.

**Activities may resume 30 minutes after lightning is last seen or thunder is last heard**

Because electrical charges can linger in clouds after a thunderstorm has seemingly passed, experts agree that people should wait at least 30 minutes after the last thunder before resuming outdoor activities.

Working surfaces upon which blood has been spilled can be cleansed with soap and water, followed by disinfectant.

**25.3** The following items should be available for use at each race. It is recommended that these items be available at each turn station and at the central emergency area.

- 1 .Disposable gloves and plastic bags. A plastic bag with several pairs of gloves could be issued to each turn station, with an extra plastic bag or two inside to be used for soiled gloves or clothing.
2. Waterless antiseptic hand cleaner (towelette packets could be included in the bag issued to each turn station).
4. Freshly made general purpose disinfectant (one part household bleach to nine parts water) should be located at each turn station and/or at the central emergency area.

**27.0 REQUIREMENTS FOR SCHEDULING SANCTIONED EVENTS AT RACING VENUE**

---

27.0 Race Track Requirements for ICSCC Sanctioned events

27.1 Any race track hosting an event organized, operated, conducted, scheduled or sanctioned by ICSCC shall be insurable within Rules 206 and 207 of the ICSCC Competition Regulations.

27.2 The ICSCC Executive Board shall have final authority to approve ICSCC sanctioned events at any venue.

27.3 Tracks hosting ICSCC sanctioned events during 2011 and later shall be approved for the current season for events running in the track's approved direction(s) of travel. Currently approved tracks are: Mission Raceway Park (CCW); Oregon Raceway Park full course (CW), full course (CCW), bypass course (CW) and bypass course (CCW); Pacific Raceways (CCW); Portland International Raceway (CW); Spokane County Raceway(CCW); and The Ridge Motorsports Park (CCW)

27.4 At tracks that have not previously hosted ICSCC sanctioned events, reconfigured tracks or tracks not running the approved direction(s) of travel, it shall be the responsibility of the hosting club to notify ICSCC headquarters in accordance with 8.1 of the *ICSCC Policy and Procedures Manual*. The hosting club shall coordinate with ICSCC headquarters and track management for the Steward's review of the track which shall occur at least 75 days prior to a proposed event. The Steward shall provide Headquarters and the hosting club with the results of his review a minimum of 60 days prior to the scheduled event. Any proposed ICSCC sanctioned event at such a track will be listed as "tentative" on the current year schedule. The ICSCC Executive Board shall confirm or deny the proposed event on the schedule and notify the hosting club of the confirmation or denial at least 45 days prior the proposed date. (Fall 2013)

## APPENDIX A

### **Joint Sanctioning**

(This section currently inactive)

The policy is to approve member club requests for jointly sanctioned races where there are indications that such race will add to the quality of ICSCC racing, increase the number of available ICSCC racing facilities, and/or provide the member club with a greater probability of achieving a financially successful race, while meeting or exceeding all ICSCC requirements for driver safety, insurability, financial responsibility, and contributions to ICSCC.

The procedure for joint sanctioning is as defined herein below.

#### **1. Definitions**

For the purpose of joint sanctioning, the following definitions apply:

- a. Race.** A program of competitive motor events on a defined course. (See Competition Regulation 701)
- b. Race Event.** A single competition of a class or classes within a scheduled race
- c. Non-ICSCC Sanctioning Body.** Any organization other than ICSCC that sanctions sports car racing or automotive competition (e.g., SCCA, ASN, ISMA).
- d. ICSCC Entrant.** Any driver having an ICSCC Competition License or non-ICSCC license who is entered in an ICSCC race event. Said ICSCC entrant must enter the race using an ICSCC Race Entry form, and if said driver has an ICSCC Competition License, he/she must enter using the ICSCC License. All ICSCC entrants are subject to all the rules and regulations governing ICSCC races and/or events.
- e. Non-ICSCC Entrant.** Any driver entered in the non-ICSCC portion of a jointly sanctioned event. Said driver enters using the appropriate non-ICSCC entry form.

#### **2. Scheduling**

The member club shall make every effort to organize a jointly sanctioned race so that variations from standard ICSCC race procedures are kept to an absolute minimum. Wherever practicable and considering time constraints, all practice sessions, qualifying sessions, and other events should avoid having ICSCC and non-ICSCC entrants on the track simultaneously.

### **3. Insurance**

Insurance for the race must include coverage equal to or greater than coverage provided under the ten-current ICSCC insurance requirements. If non-ICSCC insurance is used, proof of coverage must be received by the ICSCC Treasurer not later than ten (10) days prior to the race. Release forms approved by the non-ICSCC insurer may be used in place of the forms normally required by the ICSCC insurer, provided that each ICSCC entrant signs the ICSCC Release Form contained in the ICSCC Race Entry form.

#### **4. Race Announcements**

The ICSCC Memo may be used to announce and distribute entry forms for jointly sanctioned races, including announcements relating to non-ICSCC portions of the race, subject to the then-applicable rates established for race announcement by member clubs published in the Memo.

#### **5. Suspensions**

No driver under suspension from the non-ICSCC sanctioning body will be permitted to compete in an ICSCC event an/or in the ICSCC portion of a jointly sanctioned race without the prior approval of the ICSCC Race Steward, ICSCC License Director, and the sponsoring member club Race Chairperson, under reciprocal agreement.

#### **6. Length of Event(s)**

Whenever possible and taking into account the time limitations of jointly sanctioned races, all ICSCC race events (class races) shall be thirty (30) minutes in length. Race events may be scheduled for twenty (20) minutes without the approval of the ICSCC Executive Board, provided that notification of shortened event length is set forth in the race announcement published in the Memo.

#### **7. Jurisdiction**

ICSCC officials shall have responsibility for all entrants in ICSCC portions of any jointly sanctioned race, whether the entrants are ICSCC licensees or not. Jurisdiction of non-ICSCC entrants may be shared with non-ICSCC officials or relinquished to one sanctioning body or the other by mutual agreement. ICSCC officials shall have no jurisdiction over non-ICSCC events and race events so long as ICSCC insurance is not being used.

#### **8. Driver Levy**

The driver levy payable to ICSCC is as defined in this PPM. The ICSCC driver levy shall not be assessed on non-ICSCC entrants competing in non-ICSCC portions of a jointly sanctioned race.

### Guidelines for Monitoring Noise Emissions

The following guidelines based on the ISO Standards, and the sound meter instruction manual, shall be followed by the Sound Official in determining a monitoring location:

1. The microphones must be tripod mounted, at least 48 inches above the ground, with a minimum 25 foot distance from the closest sound monitoring personnel.
2. A 70-80 degree upward angle of incidence must be maintained for the microphone in relation to the path of sound.
3. Sound must be monitored in areas where existing conditions will not trap, amplify, reflect, or diffract the actual noise produced by the car.
4. For readings to be valid, one car only must be within the monitoring zone at the moment its sound level is recorded. A minimum of six decibel decrease is required between peaks produced by individual cars for sound readings to be considered accurate.
5. If no area exists where a reflective surface is not present, a site must be chosen where the degree of error is minimized. In no case may a reflective surface exceeding a 45 degree vertical incline, be directly opposite the monitoring station within a distance of 100 feet of the racing line.
6. In locations where the sound station must be in close proximity to a barrier, sound absorbent materials should be used to minimize the reflected sound.
7. The sound meter calibration shall be verified prior to, and at the conclusion of, each day of use. In addition, prior to the first race of any year, the Conference sound meter and calibration tone generator shall be laboratory calibrated to a source traceable to the National Bureau of Standards.
8. No reading shall be taken when there is more than one (1) car in the 100-foot sound zone. (Fall 2000)

## APPENDIX E

**Convertibles.** Convertibles are defined as cars with removable or retractable tops, whether soft-top, hardtop, or folding top. Convertibles are not allowed to participate in sessions driven at speed without a roll bar as outlined in Appendix A (See Exceptions List in Appendix B). Cars with Targa tops or T-tops which have the removable sections installed are allowed at the discretion of the Member Club without a roll bar.

Member clubs may elect to exclude convertibles or cars with removable roof sections entirely from sessions driven at speed regardless of roll bar or factory rollover protection (Spring 2022)

### Appendix A - ROLLBARS FOR CONVERTIBLES

These specifications are for inspecting convertible rollbars and represent minimum requirements. The words “shall” and “shall not” indicate that the specification is mandatory. Convertible roll bars shall be inspected by and are subject to approval by the Chief Technical Inspector at each event.

#### A.1 Basic Design Considerations

**A.1.1** The basic purpose of the roll bar is to assist in the protection of the driver (and passenger) if the car turns over or is involved in a collision. This purpose should not be forgotten.

**A.1.2** The top of the roll bar shall not be below the top of the driver's (and passenger's) helmet with the driver (and passenger) seated normally, and restrained by seatbelt/shoulder harness, and shall not be more than six inches behind the driver. It is recommended the roll bar be at least two (2) inches above the top of the driver's (and passenger's) helmet or the top of the roll bar shall be a minimum of two (2) inches above the top of the driver's (and passenger's) helmet with the driver (and passenger) seated normally, and restrained by seatbelt/shoulder harness. A plane (Helmet Reference Plane) drawn from the top (not including padding) of the roll bar to structural parts of the chassis in front of the base of the windshield (e.g., top of front suspension strut towers) shall pass over the driver's (and passenger's) helmet. (See Figure 1))

Figure 1. Helmet Reference Plane

**A.1.3** The roll bar shall be designed to withstand compression forces resulting from the weight of the car coming down on the roll bar, and to take

fore, aft and lateral loads resulting from the car skidding along the ground on the roll bar.

**A.1.4** The roll bar shall extend the full width of the cockpit.

**A.1.5** Any portion of the roll bar or bracing that might be contacted by the driver's (and passenger's) helmet shall be covered with non-resilient material such as Ethafoam or Ensolite, or other similar material, with a minimum thickness of one-half ( $\frac{1}{2}$ " ) inch. The energy absorbing material shall be firmly attached.

## **A.2 Material**

**A.2.1** The roll bar hoop and all braces shall be seamless, ERW (Electric Resistance Welded) or DOM (Drawn Over Mandrel) mild steel tubing (SAE 1010, 1020, 1025 or equivalent), or chrome molybdenum alloy steel tubing (SAE 4125, 4130 or equivalent). It is recommended that mild steel tubing be used as chromium alloys present difficulties in welding and must be normalized to relieve stress. Proof of the use of alloy steel shall be the responsibility of the participant.

**A.2.2** The size of the tubing shall be determined based on the vehicle curb weight as follows:

Vehicle Curb Weight Roll bar Mild Steel

Under 2,000 lbs. 1.50 x 0.120 or 1.75 X 0.090

2,001 lbs. – 3,500 lbs 1.75 x 0.120

Over 3,500 lbs. 2.00 x 0.120 (Outside Diameter x Wall Thickness in inches)

The minus tolerance for tubing diameter and wall thickness shall not be less than 0.010-inch below the nominal value. An inspection hole of at least 3/16 inch diameter shall be drilled in a non-critical area of the roll bar hoop to facilitate verification of tubing wall thickness. Where bolts and nuts are used, the bolts shall be at least  $\frac{3}{8}$  inch diameter SAE Grade 5 or equivalent.

## **A.3 Welding**

**A.3.1** Welding shall conform to American Welding Society D1.1, Structural Welding Code, Chapter 10, Tubular Structures. Welds shall be visually inspected and shall be acceptable if the following conditions are satisfied:

**A.3.2** The weld shall have no cracks.

**A.3.3** Thorough fusion shall exist between weld metal and base metal.

**A.3.4** All craters shall be filled to the cross-section of the weld.

**A.3.5** Undercut shall be no more than 0.01-inch deep.

#### **A.4 Roll Bar Hoop**

One (1) continuous length of tubing shall be used for the roll bar hoop with smooth, continuous bends and no evidence of crimping or wall failure. The radius of the bends in the roll bar hoop (measured at centerline of tubing) shall not be less than three (3) times the diameter of the tubing. The roll bar hoop shall have a maximum of four (4) bends totalling 180 degrees  $\pm$  10 degrees. Whenever possible, the roll bar hoop should start from the floor of the car

#### **A.5 Bracing**

**A.5.1** Roll bar hoops shall have two (2) fore/aft braces with tubing diameter and wall thickness as listed in A.2.2. The fore/aft braces shall be attached as close as possible to the top of, but not more than six (6) inches below, the roll bar hoop. The included angle between the fore/aft brace and the vertical part of the roll bar hoop shall be no less than 30 degrees. The fore/aft braces shall have no bends.

**A.5.2** Roll bar hoops shall have a diagonal brace with tubing diameter and wall thickness as listed in A.2.2 to prevent lateral distortion of the hoop. The diagonal brace shall be attached at the bottom corner of the roll bar hoop on one side and the top corner of the roll bar hoop on the other side. The diagonal brace shall have no bends.

#### **A.6 Mounting Plates**

**A.6.1** Roll bar hoops and fore/aft braces shall be attached to the chassis of the car with mounting plates that are at least 3/16-inch thick.

**A.6.2** Carpet/padding/insulation shall be removed under the mounting plates.

**A.6.3** Mounting plates shall be either welded or bolted to the chassis.

**A.6.4** Mounting plates bolted to the chassis shall have a back-up plate of equal size and thickness on the opposite side of the chassis with the plates through-bolted together. Whenever possible, the mounting plate should extend onto a vertical section of the chassis panel.

**A.6.5** There shall be a minimum of three (3) bolts per mounting plate, if bolted.

**A.6.6** The through holes for the bolts shall be a minimum of  $\frac{3}{8}$  inches from

the edge of the mounting plate.

**A.6.7** Each mounting plate shall be no more than 100 square inches in area and shall be no greater than 12 inches, nor less than 2.5 inches, on a side.

**A.6.8** The mounting plate may be multi-angled, but shall not exceed the dimensions in A.6.7 in a flat plane. (Fall 2010)

### **Appendix B – EXCEPTIONS LIST**

Cars listed in Appendix B are allowed without the addition of a roll bar; however, must adhere to the Helmet Reference Plane described in Appendix A for both driver and passenger. Any car which is not listed, but adequate proof from the car manufacturer stating that the vehicle has roll over protection, may be allowed to participate without the addition of a roll bar.

Except as otherwise required by statute, notice of the time, place and purpose of each meeting of members, whether annual or special, shall at least twenty (20) days before the day on which the meeting is to be held, be given to each member of record entitled to vote at such meeting, by delivering a written or printed notice thereof to it personally or by

mailing such notice in a postage pre-paid envelope addressed to it at its address as it appears on the Membership Register of the Conference. Except as otherwise required by statute, no publication of any notice of a meeting of members shall be required.

**SECTION 5, WAIVERS, ETC.** Anything herein contained to the contrary notwithstanding, notice of any meeting of members shall not be required as to any member who shall attend such meeting whether before or after such meeting, notice thereof shall not be required as to him.

**SECTION 6, QUORUM.** At all meetings of the members, except where otherwise provided by statute or by the Articles of Incorporation or any amendment thereto, or by the By-Laws, the presence in person or by proxy duly authorized of a majority of the members entitled to vote shall constitute a quorum for the transaction of business, and except as otherwise provided by statute, or rule of law, or by the Articles of Incorporation, or by an amendment thereto, or by the By-Laws, the vote in person or by proxy of a majority of such quorum shall be binding on all members of the Conference. In the absence of a quorum, a majority of the persons present in person or by proxy and entitled to vote may adjourn any meeting from time to time, until a quorum shall attend, provided that any meeting at which the Directors are to be appointed shall be adjourned not less than one (1) nor more than seven (7) days until such Directors have been appointed and provided further that those who attend the second of such adjourned meetings, although less than a quorum, shall nevertheless constitute a quorum for the purpose of appointing Directors, and in such event, after each member present shall have appointed its respective Director, the members present shall elect by majority vote a Director to fill the position left vacant by the failure of any member to appoint a Director. Any Director so elected shall have full authority as though having been appointed by the Member Club failing to appear. Further, any such Director may not be removed by any such absent Member Club, excepting upon sixty (60) days notice to the Conference President. At any such adjourned meeting at which a quorum shall be present, any business may be transacted which might have been transacted at the meeting as originally called. Unless otherwise provided by statute, no notice of any adjourned meeting need be given. The quorum requirements herein required shall be deemed met if the quorum is present which any meeting of the members is called to order by the President. The withdrawal of any member or members after the meeting is called to order, where a quorum is present, shall not impair the remainder to complete the business before the meeting; however, at least three (3) affirmative votes shall be required to act upon any issue, except for amendments to the By-Laws, which are specifically hereinafter provided for.

**SECTION 7, VOTING.** Except as otherwise provided in the Articles of Incorporation, every member of record shall have the right at every meeting to one (1) vote. No proxies shall be voted on after eleven (11) months from its date unless such proxy provides for a longer period, but in no event shall a proxy be voted upon after one (1) year from the date of its execution. It is contemplated that each member shall vote in person by the appearance of its President, without the issuance of any letter of authority or other proxy. In the event a member appears at any meeting by an individual other than its President, such individual shall present to the Secretary a proxy on the letterhead and over the signature of the President of the member stating the name and full address of an alternative representative, if there be one, together with a statement that such representative has full power to vote the members' interest at any regular or special meeting of the members for the period stated therein.

**SECTION 8, MEMBERSHIP.**

**(a) Qualification.** A sports car club, applying for status as a Member Club (herein referred to as a Member) in the Conference, must submit its Corporate Resolution to the President of the Conference, certifying that it meets the following qualifications:

- (1) a non-profit organization.
- (2) open to general membership.
- (3) incorporated and in good standing under the laws of its state or province.
- (4) must have conducted a major scheduled Conference event within the calendar year of the application, or in lieu thereof, must demonstrate its ability to conduct such an event including all logistical aspects of equipment, personnel, and finances normally associated with conducting races, and have received a tentative race date from the Conference President, all for the year immediately following the date of any such application, and

upcoming season must be shown.

Upon submission of such a resolution, which shall automatically be deemed a request for a race date in the next following calendar year and an application for membership, the Conference President will immediately assign a tentative race date, with or without the concurrence of the Scheduling Committee, if any there be, and refer the matter to the Board of Directors (Executive Board), who shall, at any regular meeting (or Special Meeting called specifically for the purpose of admission of new members), admit or refuse by majority vote the application for membership. If accepted, a resolution will be filed in the Minute Book indicating acceptance and admitting the applicant to standing as a Member of Conference. A copy of said resolution will be directed to the President of the applicant who shall immediately forward its resolution to the Conference President for filing in the Conference Minute Book, acknowledging acceptance of membership.

**(b) Requirements for Maintaining Member Status.**

- (1) Continue to be a non-profit organization.

**(c) Revocation of Membership.** A Member Club shall maintain its status of membership until such time as it indicates, in writing, that it no longer wishes to remain a Member Club of the Conference. Upon receipt of such notice by the Conference President, a Special Meeting of the Board shall be convened for action upon such notice. A majority vote of the existing Board of Directors shall be required for acceptance of a notice of withdrawal. In the event the Board accepts the application to withdraw, the Board shall set the terms and conditions of such withdrawal and will indicate the same to the Member forthwith. In the event a majority of the then existing Directors does not accept the

application for withdrawal, the Member Club will be notified of such fact forthwith and such notice shall include a statement of the effect that the Member Club is bound to the Articles and By-Laws and other regulations and procedures of Conference. A Member may appeal the Board of Directors' failure to approve a request to withdraw to any regular meeting of the members by timely placing the matter of the agenda for such meeting. A majority of the then-existing Members shall be required to approve any such application. The Directors, at any regular meeting, may for good cause shown terminate the membership of a Member Club. A 75 percent

majority vote of the Conference Representatives present shall be required to suspend or disbar a Member Club. The club under consideration shall not have voting power in this action. In such event, notice of said termination will be forwarded to the Member Club concerned and, if the same is accepted in writing by the said member, the termination will be operative forthwith. In the event said Notice of Termination is rejected by the Member Club, the Board will refer the matter to the members at any regular meeting (or Special Meeting called specifically for the consideration of the termination). If a majority of the then-existing members affirm the termination, the Member Club will be terminated forthwith from membership in the Conference. In the event a majority of the then-existing members reject the termination, the matter will be referred to the President for appropriate disciplinary action.

Upon receipt of said resolution, the petitioning club shall forward a resolution acknowledging the acceptance, which shall be held in the Corporate Records. The club shall retain its affiliate status until such time as the Board, for good cause, suspends or terminates said club.
